

# Carpet Recycling in California

## Alameda County

**California Carpet  
Stewardship Program**

An initiative of CARE: Carpet America Recovery Effort

### Why Recycle Carpet?

More than 300 million pounds of carpet are buried in California landfills every year, where it stays for centuries without breaking down. But there is a better way: recycling.

Recycling carpet saves natural resources, conserves landfill space, and reduces dependency on fossil fuels.

Old carpet can be recycled and made into useful new products, like building materials, auto parts, new carpet and carpet padding.

In 2010 California passed a Carpet Stewardship law to increase carpet recycling. Since then over 100 million pounds of carpet have been diverted from our landfills and recycled. By working together, we can do more!

This program is supported by Carpet America Recovery Effort (CARE). CARE works to create market-based solutions to increase carpet recycling and divert carpet from landfill.

**Thank you for recycling!**

# 加州的地毯回收

Alameda County

**California Carpet  
Stewardship Program**

An initiative of CARE: Carpet America Recovery Effort

## 為什麼要回收地毯？

每年加州的垃圾掩埋場掩埋的地毯超過三億磅之多，它們歷經數百年仍不分解。所幸現在有更好的處理方式，那就是回收。

回收地毯能節省自然資源，節省垃圾掩埋場空間，並且減少對化石燃料的依賴。

舊地毯回收後可製成有用的新產品，例如建築材料、汽車零件、新地毯和地毯底墊。

加州在2010年通過一項地毯管理法來提高地毯回收率。在那之後，已有超過一億磅的地毯從我們的垃圾掩埋場轉移並回收。透過一起努力，我們可以做的更多！

本計劃由美國地毯復原努力 (CARE) 機構支援。CARE 致力於創造符合市場需求的解決方案，以提高地毯回收率並減少地毯流向垃圾掩埋場。
